

**Event-3 dP vs.  $K_{oc}$ : Effect of Pesticide Dose · Single application**  
**(DGPIN applied in event 1 only; events 2-3 carry remobilized residue · OC% = 1% · VL = 10 m)**

**Low dose: DGPIN = 0.05 mg/m<sup>2</sup>**  
**(single application — events 2-3: remobilization only)**

**High dose: DGPIN = 100 mg/m<sup>2</sup>**  
**(single application — events 2-3: remobilization only)**
